Work Experience

FULL STACK DEVELOPER INTERN | Create Digital Solutions | Coimbatore, Tamil Nadu Jun 2025 – Nov 2025

- Architected a scalable POS and inventory management platform using Next.js, React, and Supabase implementing optimized billing workflows, automated GST calculation, UPI QR payments, and real-time inventory tracking.
- Engineered RBAC, low-stock alerts, customer loyalty/credit management, and automated WhatsApp receipts, enabling a streamlined, paperless checkout experience.

PRODUCT DESIGNER | Snippet Script Jan 2026 – Mar 2026

- Designed responsive website layouts for desktop and mobile platforms, focusing on usability, visual consistency, and user experience.
- Created and iterated on UI/UX designs and prototypes, incorporating design improvements based on feedback and usability considerations.

Skills

Languages: Python
Frameworks: React, Node.js, Express.js
Databases: MySQL, Supabase
Tools: Git, GitHub, Figma

Projects

Techno Tenant

- Developed a property and rent management application enabling landlords to manage properties, tenants, rent collections, pending balances, expenses, and real-time financial analytics through an interactive dashboard.
- Tools Used: React, TypeScript, Firebase Authentication, Cloud Firestore, Firebase Hosting, and Progressive Web App (PWA) technologies.

Adaptive Vehicle Guide

- Developed AutoRAG, an adaptive vehicle service and troubleshooting advisor that handles simple, medium, and complex queries using direct LLM generation, single-step RAG, and agentic multi-hop RAG.
- Tools Used: Python, FastAPI, React, TypeScript, pgvector, NVIDIA NIM API, Mem0

Achievements

Best Club Secretary of the year (2025–26)

Winner - HackVerse 5.0 (Avalanche Track), NITK, Surathkal

Runner Up - CryptoShield 2k24 Hackathon, Amrita Vishwa Vidyapeetham, Chennai

Winner - Altruisty Design Challenge

Positions of Responsibility
